

Astrology Monthly Overview

How To Use This Worksheet

- Download and print this workbook on or just before each New Moon (alternatively use this as a guide and write in your journal).
- Get your FREE Birth Chart - [Mystical Moon Rituals Monthly Astrology](https://mysticalmoonrituals.com/monthly-astrology) (mysticalmoonrituals.com/monthly-astrology)
- Stay connected to the [Monthly Astrology](https://mysticalmoonrituals.com/monthly-astrology) page as you move through this workbook
- New Moons & Full Moons
 - Check the house they are in on your birth chart by looking at the degree of the moon given on my website, see where that is on your chart and look at the numbers towards the middle of the wheel.
 - Look at the aspects given on my website, if there are any planets or symbols at the same degree (or 3 degrees either side for New & Full Moons) of any of the signs listed then they are important.
- Sun, Mercury, Venus & Mars
 - For these 4 planets, we are looking to see what house or houses they will move through during the cycle, again see where the degree lands on your chart and check the house numbers in the middle.
- Jupiter, Saturn, Uranus, Neptune & Pluto
 - For the outer planets, we just want to see if there are any aspects being made, so check the degrees of the listed zodiac signs and if there are any at the same degrees then these are important transits.

If you would like me to do this on your behalf and have a zoom call to discuss the transits and houses affecting you during an upcoming moon cycle, you can book a reading with me and I will walk you through it.
